

*Sir Massimiliano Mannucci, 46 years old, Knight of the Italian Republic for cynological merits, around 90th I have breed Bloodhound, winning all over Europe several nationals and internationals titles including European and World championships. Gold medal as better Italian breeder of hound group. I wrote books and technical articles about dogs and romances. After having studied at the Berkley's University in San Francisco, I'm studying at the newest University course in Pisa (Italy) only for dog sciences and will teach next year. Starting to judge, I've judged in club shows, nationals and internationals shows, in recent times the most prestigious are the Saint Hubert club show in Belgium as unique judge, club shows, group and CACIB in Finland, Sweden, Latvia, Ukraine, Belgium, Czech Republic, Slovakia, Slovenia, the Middle-east cup in Poznan-Poland, Moscow "Russia", Saint.Petersburg, U.S.A. Canada, etc. Future appointments in Denmark, France, Lithuania, Norway, Ireland, New Zealand, etc. also I've judged the Terrier Specialty at the World dog show in Stockholm 2008. I'm involved with Rotties since many year, because when I started to train dogs for SCH/IPO trials, I started in their training-field and with their trainer. So I appreciate the breed and studied them, and got in touch with many breeders, in Italy and abroad. Judging them, first in Italy and than abroad I appreciate the differences of breeding in many Countries. Also I've had the chance to judge the main important shows and club shows all over the Europe. I'll also the great honor to judge on next October the American club show in Boston*
